

HIGH HEAD SUMP PUMP

RHV180 / 220

This REEFE® Twin Vortex Impeller Sump Pump, is specifically designed for applications with longer pipe runs. Ideal for heavy duty high lift situations. Manufactured with an industrial grade motor with insulation Class F.

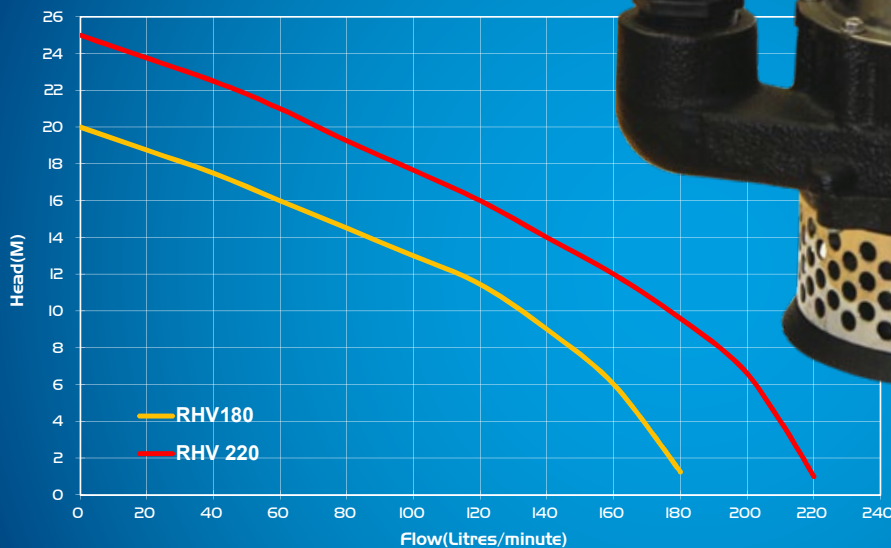

Features & Benefits

- Non-clogging High Head twin Vortex impeller pump
- Solids Handling 8mm
- Liquid Temperatures 0oC to 40oC
- Thermal overload protection
- Robust particle screen

Construction

- Gr 304 Stainless Steel Outer Casing
- Twin Cast Iron Vortex Impellers
- Insulation Class F induction Motor
- Dual mechanical seal with oil chamber
- MAC 3 float switch
- Stainless Steel particle screen
