X2 WI-FI CAPABLE

IRRIGATION CONTROLLER

The X2 controller continues the legacy set by the popular X-Core™ with the same set of reliable and highly efficient capabilities, but brings irrigation management into the next generation by providing the option to add advanced water-saving features using Hunter's industry-leading wireless Hydrawise® technology.

With X2, you can keep the familiar dial-based programming style offered by X-Core. If you choose to upgrade to cloud-based Hydrawise management, programming is familiar, fast and easy thanks to a helpful setup wizard using a smartphone or desktop device. Hydrawise maximises water savings by automatically adjusting irrigation schedules based on local weather measurements sourced from the internet.

X2 ensures healthy, green landscapes to make site management more convenient and profitable in routine installations. You can quickly set irrigation schedules and manage an unlimited number of controllers with real-time controller status updates via Hydrawise software.

FEATURES AND BENEFITS

- 4, 6, 8 or 14 station fixed controller
- Wi-Fi capable managed by Hydrawise software
- Backlit display provides optimal visibility in any setting
- 3 flexible programs with 4 start times each with run times up to 6 hours
- QuickCheck™ provides simple diagnostics of faulty field wiring
- Hide programs option displays one program and one start time for simplification
- Suspend irrigation for up to 99 days during the off-season
- Short-circuit protection detects wiring faults and skips the station without system damage without changing run times
- Warranty period: 2 years
